Implementing the Act

An opportunity to reflect on how things are going.

What opportunities have the Council encountered and how have these been best utilised?	The Community Council continues to seek opportunities to make improvements. Funding has been identified for the purchase of new play equipment in Idole. Council powers have been utilised to support the improvement of the play area in Llandyfaelog along with provision of defibrillators in the Community. The Council has agreed to provide finance to support road safety improvements. The Council will continue to seek innovative solutions to enable improvements to road safety in the Community.
Has the Council encountered any barriers and if so what actions have been/are being taken to overcome these?	The lack of funding available for necessary road improvements have been a significant barrier to the Council being able to implement change in the area. The Council has been unsuccessful in applications to the safe routes in Communities scheme as this has been aimed more towards larger urban schemes.
What challenges has the Council faced and what measures have been put in place to overcome them?	The main challenge has been lack of available funding to enable necessary works to be carried out.
Are there any matters the PSB could support delivery/progress on?
